Vegetable Seed Trials

JUN 16 1932

Conditions of Business

Should be Read by Everyone before sending in your Orders

PRICES:—Owing to the dependency of seed crops on weather conditions, prices are liable to fluctuate, but as far as possible the rates shown in this Catalog will be adhered to throughout. **PRICES LISTED IN THIS CATALOGUE** are those ruling at the time of issue, but **ARE SUBJECT TO ALTERATION WITHOUT NOTICE.** Providing the order is over 1/- in value, **WITH THE EXCEPTION OF PEAS, BEANS AND SWEET CORN**, the prices quoted for packet seeds are post free. Prices of Vegetable Seeds in bulk, Peas, Beans and Sweet Corn, in packets, Farm Seeds and General Sundries are all understood either ex store, F.O.R., or F.O.B., Melbourne, or in the case of postal parcels, postage extra. **THIS CATALOGUE CANCELS** all previous lists.

TERMS:—All goods are supplied on the terms of monthly account, and unless stipulated otherwise on the invoice (**E. and O.E.**) a discount of 2½ per cent. is allowed off Flower Seeds, Vegetable Seeds, Fruit Trees and Plants paid for within 30 days of the date of invoice. **Farm Seeds, Manures, Spray Compounds** and other lines included in the **Sundry** pages of this Catalogue are sold on a strictly nett basis, whether stipulated at time of sale or not.

REMITTANCES:—Payments may be made by cheque (Crossed and marked "Not Negotiable"), Bank Draft, Postal Note or Post Office Order. New Zealand, Fijian, and other oversea clients are requested to remit by Bank Draft, and not by stamps or postal notes, which are not negotiable in Australia. **Exchange must be added to all country and interstate cheques**, the rate being 6d. for Victoria and 1/- for Interstate.

NON-WARRANTY CLAUSE.

We give no warranty, expressed or implied, as to purity, description, quality, productiveness, or any other matter of any seeds we send out, and we will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are to be returned **UNOPENED** at once.

PACKING:—We charge cases and packing at (as near as possible) cost price.

ORDERING:—When ordering, write plainly name and address, also postal address, and state nearest Railway Station (State whether **MR., MRS.,** or **MISS.** **THESE OMISSIONS FREQUENTLY CAUSE CONFUSION.**) All orders are despatched as early as possible on receipt, and should delay occur, clients are advised at once.

DELIVERY:—All goods are delivered free to Wharves, Railway Stations and Carriers' Offices at Melbourne, after which our responsibility ceases, and goods travel at purchaser's risk.

SUBSTITUTES:—Should the stock of any variety ordered be exhausted, we shall, to save delay, send in its place the most suitable substitute, unless instructed to the contrary.

NEW CUSTOMERS:—Customers with whom we have not previously transacted business are requested to remit with order or refer us to some reputable Melbourne person or firm as guarantee of good faith.

PASSENGER TRAIN FREIGHT RATES.

The following rates have been supplied by the Victorian Railways, and are included **without any responsibility on our part**, as they are liable to alteration at any time by the Department. Each parcel is charged for separately. These freights apply only when prepaid at Melbourne or other sending station; when freight is payable at destination, twenty-five per cent. (25%) extra is charged by the Department with a minimum of 3d. and a maximum of 1/-. **All rates are quoted E. & O.E.**

STAMPED PARCELS (PREPAID) RATES.

[illegible]

GOODS TRAIN CONSIGNMENTS.

The attention of clients is directed to the fact that under the "nominated days of loading system" now in force on the Victorian Railways, goods are only accepted for despatch to country stations on certain days and at specified times.

Sometimes goods are only accepted on **one** specified **day each week**, others have two loading days, and some three days per week, while certain stations enjoy the privilege of a loading every day.

Clients are recommended to **make themselves acquainted** with the **specified loading days** and to send their orders accordingly to prevent a delay arising over which we have no control. If unable to obtain these particulars from the local stationmaster, write us, and we will gladly supply the necessary information.

ALL PRICES IN THIS CATALOGUE ARE SUBJECT TO ALTERATION AT ANY TIME
WITHOUT NOTICE.

Bulbs, Corms, Tubers, Etc.

The Bulbs, Corms and Tubers listed in this Catalog represent only those varieties which, being amongst the more easily grown sorts, are most suitable for the Home Garden. Those Bulb enthusiasts interested in the rarer and less easily grown species are requested to write for full list of varieties, which will gladly be mailed on receipt of detailed requirements.

Anemone Bulbs

**GILL & SEARLE'S SPECIAL STRAIN
MIXED COLORS.**

Plant February to May.

ST. BRIGID TYPE—Owing to their brilliancy of color, Anemones are unequalled amongst the Spring Flowering Bulbs for bedding and general garden decoration. The colors range from brightest scarlet to flesh pink, and from lilac to deep purple, some of the flowers being mottled, striped and ringed by various shades. For cut blooms, as well as for garden decoration, St. Brigid Anemones can be recommended.

Bulbs: First Size, 1/- doz., 7/6 100; Second Size, 1/6 doz., 10/- 100 (Post Free).

Ranunculus Bulbs

**GILL & SEARLE'S EXHIBITION STRAIN
MIXED COLORS.**

Plant February to May.

Under the above name we recommend very highly our "Exhibition" Strain of Ranunculus. The flowers are double, of immense size, and combine every possible shade of color. This strain produces flowers of perfect form, borne on stout but graceful stems, at least twice as large as the best previously known types. Plant bulbs with claws downwards.

Bulbs: First Size, 1/- doz., 7/6 100; Second Size, 1/6 doz., 10/- 100 (Post Free).

**RANUNCULUS BULBS
CLAREMONT SUPER HYBRIDS, No. 5.
(See Colored Plate.)**

Crocus

Plant February to April (Freight Extra).

Old English favourite, will thrive in poorest soil.

MIXED COLORS 3/6 doz.

Ranunculus, Gill & Searle's "Exhibition" Strain.

Gill & Searle's "Grendon" Nurseries

Lovers of flowers are cordially invited to visit and inspect our Nurseries, particularly during March, April and May, when the Dahlias are flowering. Many other plants of interest can be seen throughout the year. Visitors are always welcome, there being no obligation to purchase.

Our "GRENDON" NURSERIES are situated at the corner of HAMPTON STREET and CENTRE ROAD, NORTH BRIGHTON. The Hampton Street bus from North Brighton Railway Station passes the gate.

THE NURSERIES ARE OPEN FROM 8 a.m. TILL 5 p.m. DAILY, SUNDAYS AND HOLIDAYS EXCEPTED.

Telephone Numbers: Nurseries, X4310; Warehouse, F3645, F3646, F6885.

BALLERINE —Light blue-violet	2/- each
CAMELOT —Creamy white, edges pale violet	2/- each
CATARINA —Lavender and blue	1/6 each
FLAMING SWORD —One of the finest yellow varieties	2/6 each
GULES —Lilac blue and reddish violet	1/6 each
HAKADOR —Pale rosy blue	2/- each
J. B. DUMAS —Standards violet rose, falls deeper shade; large flower	3/6 each
JEAN CHEVREAU —Pale yellow, falls white, spotted violet brown	3/6 each
LADY BYNG —Pale lavender with light suffusion of rose	3/6 each
LADY CHARLES ALLOM —Rich blue	2/- each
LADY FOSTER —Pale blue, fine	2/- each
LENT A. WILLIAMSON —Bright blue with lighter edging	2/6 each
LORD OF JUNE —Rich blue with lighter standards	2/- each
MAGNIFICA —Reddish violet and pale blue	2/6 each
MERCCELLA —Rosy blue and purplish rose	2/6 each
MELPOMENE —Bright clear blue, yellow beard	2/- ea.
MILDRED PRESBY —White standards and pansy violet falls	3/6 each
MISTRESS FORD —Slight reddish-purple; falls long, rich red violet	2/6 each
MRS. COWLEY —Rosy copper and velvety crimson	2/- each
NEPTUNE —Purplish blue, pale blue standards	2/- ea.
OPERA —Bright rich pansy violet; falls rich velvety violet purple	1/6 each
OPORTO —Rich purple shade	2/- each
PRINCE ORANGE —Golden yellow and brown	1/6 each
PROSPER LAUGIER —Copper and dark maroon	1/6 ea.
QUEEN CATARINA —Pale lavender violet	2/- each
RUBY —Rich, deep, reddish violet purple	1/6 each
SOUVENIR DE MDE. GAUDICHAU —Deep violet purple	3/- each
TITUS —Brilliant rosy mauve	2/6 each
ZWANENBURG —Silvery grey	1/6 each

CUSHION IRIS (Oncocyclus & Regelio Cyclus Irises). Plant January to June.

Plant one inch deep, in light, sandy soil, in which some old plaster, burnt oyster shells, or bone meal have previously been dug in; an addition also of a little lime will be found beneficial. Give a sunny aspect and good drainage. Korolkowi and Regelio Cyclus are the easiest to grow.

ANDROMACHE —Dark velvety veined on soft lilac white	2/6 each
CLYTEMNESTRA —White, violet veined	2/6 each
HOOGIANA —A new color—soft blue; hardy variety	2/6 each
IBERICA —Delicate lilac, with dark falls	1/3 each
ISIS —Rich ruby red, with grey and purple veining	2/6 each
KOROLKOWI —Mixed colors, include purples, blacks, violets, etc.	1/6 each
LORTETI —Rosy pink variety; darker veins	6/- each
LUCIA —Ruby red; steel blue beard	2/6 each
SATURNUS —Light lilac-violet falls, purple veined	2/6 each
SUSIANA (Mourning Iris) —Grey with black lines	2/6 each
IRIS, KAEMPFERI (Giant Japanese Iris) —The colors range from purest white, through various shades of violet blue, to the darkest purple. Requires abundance of moisture. Scarcely any plants can compare for gorgeous beauty with this section of the	

Iris. They delight in good rich heavy soil, and require a copious supply of water during the blooming season. Obtainable May to July 1/6 ea.; 15/- dz.
IRIS, STYLOSA—Loveliest blue, golden bands and blotches 4d. each; 3/6 doz.
IRIS, STYLOSA ALBA—A white-flowering variety of the above 6d. each; 5/- doz.
IRIS, FIMBRIATA—A fringed variety, producing flowers of most delicate pale blue, overlaid with mauve. The Rhizomes are available the whole year round 1/- each; 10/- doz.

Dutch Iris

Plant February to April (Freight Extra).

A valuable race of Iris, resembling the Spanish varieties in form, but the flowers are larger and quite a fortnight earlier than the Spanish type.
SPECIAL MIXED 4d. each; 3/6 doz.

Spanish Iris

Plant February to April (Freight Extra).

The Spanish Irises are exceedingly beautiful, and many kinds exhibit rich tints of yellow, orange, and bronze, as well as various shades of blue and purple.
NAMED SORTS, MIXED 1/9 doz.
TINGITANA—Large pale blue flowers 3d. each; 2/6 doz.

Ixia

Plant February to May (Post Free).

Very suitable for growing as clumps in borders. The flowers are of various shades of scarlet, yellow, white, green, orange, purple, and rose, produced on light graceful stems in great profusion.

ASPASIA —Pale yellow, outside purple, black eye	3d. each; 2/- doz.
CRATEROIDES —Scarlet flowers	3d. each; 2/- doz.
EMPEROR OF CHINA —Yellow, black eye	3d. each; 2/- doz.
VIRIDIFLORA —Vivid green flowers	5d. ea.; 4/- doz.
MIXED COLORS	9d. doz.; 6/- 100

LILIUMS

ACCLIMATISED BULBS (Freight Extra).

April to July, except Candidum and Longiflorum, which are obtainable from January to April.

AURATUM (Golden-Rayed Lily of Japan) —Flowers sweet scented, large in size	2/6 & 3/6 each
CANDIDUM (Christmas Lily or Madonna Lily) —Pure white blooms, sweetly perfumed	1/- each; 10/- doz.
CROCEUM —Orange spotted black	1/6 each
DAURICUM —Upright orange flowers	1/9 each
HANSONI —Flowers golden yellow, heavily spotted black; rare	3/6 each
HENRYI —Large orange flowers	1/-, 1/6 and 2/6 each, according to size
LONGIFLORUM (Hermuda Easter Lily) —Pure white, sweetly scented flowers	9d. each; 7/6 doz.
LONGIFLORUM GIGANTEUM —White trumpet-shaped flowers	1/- each; 10/- doz.
PARDALINUM (Panther Lily) —Yellow and orange red, spotted	9d. each; 8/- doz.
REGALE (The Regale Lily) —A combination of white, pink and yellow shades	1/6 & 2/6 each
SPECIOSUM ALBUM (White Tiger Lily) —Pure white	2/- each; 22/- doz.
SPECIOSUM MAGNIFICUM —A rich shade of deep pink and white	1/6 each; 15/- doz.
SPECIOSUM RUBRUM (Pink Tiger Lily) —Pink and scarlet	1/6 each; 15/- doz.
SPECIOSUM MELPOMENE (Crimson Tiger Lily) —Pink and white spotted	1/6 each; 15/- doz.
TIGRINUM FLORO-PLENO —Flowers double, orange	1/- each; 10/- doz.
TIGRINUM SPLENDENS —Orange scarlet, black spots white spotted	9d. each; 7/6 doz.

Lachenalia

Plant January to March (Freight Extra).

AUREA—Pure golden yellow, wax-like flowers on stems about 12 inches long . . . 4d. each; 3/- doz.

PLANT IRIS STYLOSA BLUE FOR WINTER FLOWERING.

Telephone:
X 4310

GILL & SEARLE LTD.

NURSERIES:
COR. HAMPTON ST.
AND CENTRE RD.,
NORTH BRIGHTON

Lily of the Valley

Plant May to August (Freight Extra).

CONVALLARIA MAJALIS—Plant in a moist shady position in good rich ground, and do not disturb the clumps for several years. The eyes should be barely covered 4d. each; 3/- doz.

Montbretias

Plant April to July (Freight Extra).

Unsurpassed for cut flowers and table decoration; flowers freely produced on stems of about 18 inches high, resembling a miniature Gladiol.

CROCOSMAEFLORE—Orange-red, splendid for cutting 3d. each; 2/6 doz.

HIS MAJESTY—Red, golden yellow; the largest variety to-date 9d. each; 7/6 doz.

JAMES COEY—Red with orange centre 6d. ea.; 5/- doz.

KATHLEEN—Yellow, outer petals are tinted orange 6d. each; 5/- doz.

MARJORIE—Light yellow with carmine spot in centre, three outer petals are carmine 9d. each; 7/6 doz.

POCAHONTAS—Rich coppery scarlet with golden lustre, centre orange with small blood crimson blotches 9d. each; 7/6 doz.

PROMETHEUS—Deep orange crimson eye 9d. each; 7/6 doz.

QUEEN ALEXANDRA—Yellow with small cerise blotch on lower petal 9d. each; 7/6 doz.

QUEEN OF SPAIN—Deep golden-orange, reversing petals golden-apricot with small crimson and purple calyx 9d. each; 7/6 doz.

SPECIOSA—Colour, bright orange red; flowers on long stems; one of the best; splendid for cutting. Flowers have been known to last in water for over a fortnight 3d. each; 2/6 doz.

MIXED SORTS—A splendid mixture 4d. each; 3/- doz.

TULIPS

Plant February to May (Freight Extra).

The Darwin are perhaps the noblest Spring-flowering garden subject. They succeed best in open position and throw up flowers of great substance on long stems. All the best colors are in our mixture. Plant bulbs about 4 inches deep in the ground.

DARWIN CHOICE MIXED 3/6 doz.; 26/- 100

DARWIN SEPARATE NAMED VARIETIES 4/6 doz; 33/- 100

PARROT, MIXED—A most singular and picturesque variety with curiously lacinated petals; large attractive and beautiful flowers of the most striking and brilliant combination of colors 3/6 per doz.

Darwin Tulips.

WATSONIA

Plant February to May (Freight Extra).

HYBRID VARIETIES.

CAMBERWELL—Salmon, with vieux rose throat, large flowers 1/- each; 10/- doz.

MALVERN—White ground, shaded lavender; large 1/- each; 10/- doz.

ADELAIDE—Orange shade, dwarf habit 6d. ea.; 5/- doz. other shades 1/6 doz.

BALLARAT—White, pink throat 6d. each; 5/- doz.

BRISBANE—A fine purple shade 6d. each; 5/- doz.

COCCINEA (Coral Bells)—Dwarf red, tipped white 6d. each; 5/- doz.

GEISHA—Combination of orange, buff and salmon 6d. each; 5/- doz.

HOBART—White frilled petals 6d. each; 5/- doz.

MELBOURNE—Salmon pink 6d. each; 5/- doz.

ORANGEA—Orange red shade 6d. each; 5/- doz.

PERTH—Flowers magenta 6d. each; 5/- doz.

PINK PEARL—Tall pink 6d. each; 5/- doz.

QUEENSTOWN—Mauve flowers 6d. each; 5/- doz.

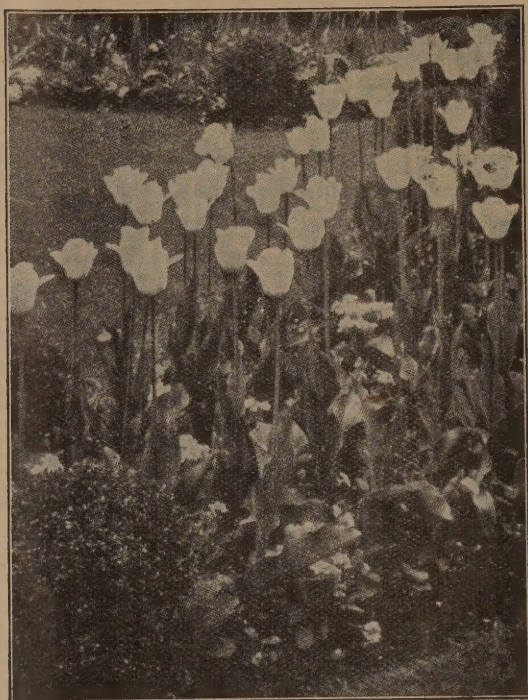

SPICATA—Peach blossom pink (like Giant Ixia) 3d. each; 2/- doz.

SYDNEY—Rose pink shade 6d. each; 5/- doz.

MIXED—Including most of the above varieties, also

GENERAL LIST.

ALBA—Long spikes of pure white flowers 1/- doz.; 6/6 100
ROSEA—Rosy pink blooms 1/- doz.; 6/6 100

Darwin Tulips.

General List of Bulbs

FREIGHT OR POSTAGE CHARGED EXTRA.

ACIS AUTUMNALIS. Plant February to April.
4d. each; 3/6 doz.

ALLIUM. Plant February to April.

MOLYLUTEUM. golden yellow; **NEAPOLITANUM,** white; **ROSEUM,** deep rose 3d. each; 2/- doz.

AMARYLLIS. Plant January to May.

BAPTISTI ALBA—White, golden yellow throat 2/- ea.

BAPTISTI ROSEA—Deep rose, yellowish throat 1/6 ea.

BELLADONNA—Pink flowers 6d. each; 5/- doz.

CHANDLER'S VARIETY—Best pink type yet raised.

Up to 30 flowers on long stem 3/6 each

HAYTHOR (Belladonna)—Finest white yet raised,

opening pale yellow 3/6 each

SPECIOSA PURPUREA—Purplish rose flowers striking

white centres 1/6 each

FORMOSISSIMA (Sprekelia)—Deep crimson or blood

red 1/3 each; 12/- doz.

ALSTROEMERIA. Plant March to June.

AURANTIACA—Orange, spotted carmine 9d. ea.; 7/6 doz.

AUREA—Golden yellow flowers 1/- each

PEREGRINA—Rosy purple flowers 1/3 each

BABIANA. Plant February to April.

MIXED COLORS—Closely related to the Ixias 3d. each; 2/- doz.

MONTBRETIAS ARE UNSURPASSED FOR CUT FLOWERS AND TABLE DECORATION.

BRUNSVIGIA.

Plant March to June.

JOSEPHINE—Bright red flowers from 2½ to 3 in. long, which are borne in large umbels comprising as many as 40 blooms 10/6 each
MULTIFLORA—Rich pink flowers 2/6 each
MULTIFLORA ALBA—Pure white 2/6 each
MINOR—12 to 40 pale red flowers on stout stems 2/6 ea.

BEGONIA (Tuberous-Rooted). Plant July to Sept.

SINGLE MIXED—A very choice strain 1/6 ea.; 15/- doz.
DOUBLE MIXED—Choice selection 1/6 each; 15/- doz.
CHOICE EXHIBITION VARIETIES 5/- upwards
 (List on application)
BASKET VARIETIES, MIXED 1/6 each; 15/- doz.

CHLIDANTHUS FRAGRANS. Plant April to July.

Golden yellow flowers, highly perfumed 6d. ea.; 5/- doz.

COLCHICUM (Autumn Crocus). Plant Jan. to April.

SPECIOSUM—Deep purple flowers 1/- each
AUTUMNALE—Pale heliotrope flowers 9d. ea.; 7/6 doz.

CRINUM. Obtainable all the year round.

KRELAGEI—Deep rich pink flowers 3/6 each
CAPENSE—White, small rose stripe 1/- each
MOOREII—Large bluish rose flowers 2/6 each
NATALENSE (Natal Lily)—White flowers with pink rays, free-flowering 2/6 each
POWELLI PURITY—The best white 1/- each
STRIATUM—Pale rose, red stripes 3/- each
YEMENSE—Large sweet scented white flowers 3/6 ea.

CYCLAMEN. Obtainable all the year round.

MIXED COLORS 1/6 & 2/6 each; 16/- to 22/- doz.

DIERAMA. Plant April to May.

PULCHERRIMA—Rosy purple flowers 1/- ea.; 10/- doz.
ROSEA—Clear rose flowers 1/- each
ATROPURPUREA—Dark purple flowers 1/- each

DIELYTRA SPECTABILIS. Plant April to July.

Heart-shaped, deep pink and white flowers.

ROOTS 2/3 each

EREMURUS. Plant Feb. to July.

HIMALAICUS—Fine large white flowers 4/6 each
HIMROB—Blush rose colored flowers 5/6 each
ROBUSTUS—Large deep rich rose flowers 4/6 each

GALANTHUS (True English Snowdrops).

Plant January to June.

DOUBLE 6/- doz. **SINGLE** 5/- doz.

HELLEBORUS. Plant April to May.

MIXED COLORS, CHRISTMAS ROSE 1/6 ea.; 15/- doz.

HEMEROCALLIS. Plant April to May.

APRICOT, deep yellow; **DR. REGAL**, orange yellow; **ESTMERE**, yellow and brown; **FLAME**, fiery yellow; **FULVA**, orange red flowers; **AUREOLI**, orange, dwarf, early; **OCHROLEUCA**, new yellow; **ORANGEMAN**, orange; **GOLD DUST**, fine orange, tall; **THUNBERGI**, pale yellow, late 1/6 each

HIPPEASTRUM.

MIXED COLORS 1/- to 2/- each, according to size
JOHNSONI—Red flowers with white stripe 2/- & 2/6 ea.

ISMENE (Sacred Lily of the Incas).

Plant January to August.

CALATHINA—Pure, snow-white flowers 1/6 each
SULPHUR GEM—Cream with primrose throat 2/6 ea.
SULPHUR BEAUTY—Light yellow 2/6 each

NERINES & LYCORIS.

Plant Jan. to Aug.

ROSE QUEEN, fine rose shade, 2/6; **BOWDENT**, rosy magenta, 1/6; **CORAL NEW**, red, 3/6; **CORUSCA**, brilliant scarlet, 1/6; **CRISPA**, pale pink, rare, 1/6; **ELEGANS ALBA**, pure white, 1/6; **ROSEA**, bright red, 1/6; **SARNIENSIS**, rose crimson, 1/-; **FOTHERGILLI**, vermillion scarlet, 1/6; **FILIFOLIA**, red, 1/-; **HUMULUS**, rose pink, 1/6.
FOTHERGILLI MAJOR (Rare)—Improved scarlet, 3/6
JAPONICA (Lycoris radiata)—Deep red 1/-
LYCORIS SANGUINEA—Carmine red 2/-
LYCORIS SQUAMIGERA (Purple Spider Lily) 2/-
 Our Selection of 6 Named Varieties of Nerines for 7/6.

Cyclamen.

ORNITHOGALUM. Plant Feb. to April.

ARABICUM—White, black eye 3d. each; 2/6 doz.
PAEONY. Plant May to August.
DEEP ROSE, WHITE, RED, DARK RED, PINK, 2/- ea.
TREE PAEONY (See Plant Catalog).

RICHARDIA. Plant April to July.

Common White Arum Lily 9d. each; 7/6 doz.
ALBA MACULATA—Cream white, dark base 9d. each
ELLIOTIANA—Deep golden yellow 2/- each
PERLE VON STUTTGART—Pure white 1/6 each
REHMANNI (The Pink Calla) 2/6 each
REHMANNI ROSEA—Pretty rose color 2/6 each
SANCTUM—Velvety purplish black flowers 1/6 each

SCHIZOSTYLIS. Plant May to July.

COCCINEA—Brilliant scarlet 6d. each; 5/- doz.
MRS. HEGARTY—Clear salmon pink 6d. ea.; 5/- doz.

SCILLAS. Plant Feb. to April.

ALBA, White, 2/- doz.; **COERULEA**, Blue, 2/- doz.; **ROSEA**, Rose, 2/- doz.; **MIXED COLORS**, 1/3 doz.

SNOWFLAKE. Plant February to May.

White, green spots 3d. each; 2/- doz.

SPARAXIS. Plant February to May.

BRILLIANT—Bright scarlet, yellow throat 4d. each
MIXED COLORS 1/- doz.

VALLOTA PURPUREA (Scarborough Lily).

Obtainable all the year round.

Flowers deep sanguine red, with light throat, are open, funnel shaped, free blooming and hardy 1/6 each

Monthly Calendar for the Flower Garden

The times in this Calendar refer to Melbourne and Suburbs and districts having similar climate, therefore due allowance must be made for earlier or later districts as well as for favorable or unfavorable seasons which may prolong or curtail the period for sowing Flower Seeds.

The Calendar does not comprise all the varieties of Flower Seeds listed, and many other sorts will be found in the general list of Flower Seeds.

For the sowing season of varieties not included in this Calendar, see abbreviations throughout the Flower Seed Section—(S) Sow in the Spring and Summer; (A.S.) Sow Autumn and Spring.

SEED SOWING.

A large percentage of the failures experienced in raising seeds is due to the following causes:—

1. Using unsuitable soil for covering. Sifted, well-decayed cow manure will give the best results.
2. Sowing too deeply or not covering sufficiently.
3. Allowing the surface of the soil to become dry.
4. Omitting to provide some sort of covering during hot weather.
5. Sowing while the soil is too cold or too wet to permit germination.

JANUARY.

During this month, it is advisable to raise seedlings in a calico or canvas frame, the former being the more suitable, as it admits more light and is not so apt to draw the young plants. On dull days, the covering may be removed altogether. The following may be sown during January for Winter and early Spring bloom:—

Anemone, *Antirrhinum*, **Calceolaria*, *Calliopsis*, *Canterbury Bells*, *Candytuft*, *Cornflower*, **Cyclamen*, *Cineraria*, *Carnation*, *Foxglove*, *Gemm*, *Heuchera*, *Leptosyne*, *Mignonette*, *Nemesia*, *Pansy*, *Poppy* (Iceland), **Primula* (Greenhouse Varieties), *Primula Malacoides*, *Ranunculus*, *Stock* (Nice Type), *Sweet Pea* (Winter Flowering), *Sweet William*, *Viola*, *Wallflower*.

The varieties marked (*) are Green-house plants, and are not suitable for sowing in the open ground, except in a sheltered position.

FEBRUARY.

During the early part of the month the weather is usually dry and remarks under the heading of January apply to this month. The first week in February is late enough for sowing seeds for Winter bloom, but the following are all suitable for sowing during the month for Spring and Summer flowers.

The latter part of February is a good time for sowing hardy Annuals, Biennials and Perennials, such as under:—

Anemone, *Aquilegia*, *Antirrhinum*, *Anchusa*, **Begonia* (Tuberous-rooted), **Calceolaria*, *Candytuft*, *Calliopsis*, *Canterbury Bells*, *Carnation*, *Cornflower*, *Calendula*, *Campanula*, *Clarkia*, **Cyclamen*, *Delphinium*, *Dianthus*, *Gemm*, *Godetia*, *Heuchera*, *Hollyhock*, *Hunneemannia*, *Iberis*, *Larkspur*, *Leptosyne*, *Lupin*, *Mignonette*, *Nemesia*, *Pansy*, *Poppy* (Iceland), *Ranunculus*, *Stokesia*, *Sweet Pea* (Winter Flowering), *Sweet William*, *Stocks* (Nice Type), *Verbena*, *Viola*, *Wallflower*.

Varities marked (*) are Greenhouse plants, and are not suitable for the open garden, except in a very sheltered position.

MARCH.

Sow the seeds recommended as early in the month as possible to get the best results, as not only do they germinate quicker while the soil is warm, but early sowing means a longer growing period for the young plants before the ground becomes cold. Transplant seedlings from previous sowings early to enable them to establish themselves and start blooming before the cold weather sets in.

Aquilegia, *Alyssum*, *Antirrhinum*, *Anemone*, *Anchusa*, *Auricula*, **Begonia* (Tuberous-rooted), *Calendula*, *Calliopsis*, *Campanula*, *Candytuft*, *Chrysanthemum*, *Clarkia*, *Cornflower*, *Daisy*, *Delphinium*, *Dianthus*, *Dolichos*, *Everlasting Pea*, *Eschscholtzia*, *Foxglove*, *Gaillardia*, *Gemm*, *Godetia*, *Gypsophila*, *Heuchera*, *Hollyhock*, *Iberis*, *Larkspur*, *Leptosyne*, *Linaria*, **Lobelia*, *Lupin*, *Mignonette*, *Mimulus*, *Myosotis*, **Nemesia*, *Nemophila*, *Pansy*, *Pentstemon*, **Petunia*, **Phlox* (Perennial),

MARCH—Continued.

Poppy (Iceland), *Polyanthus*, *Primrose*, *Pyrethrum*, *Ranunculus*, *Sweet Pea* (Spring Flowering), **Salpiglossis*, *Scabiosa*, *Stocks*, **Schizanthus*, *Verbena*, *Viola*, *Violet*, *Virginian Stock*, *Wallflower*.

Those varieties marked with (*) require some protection from frosts during Winter.

APRIL.

Sow as early as possible during April to give the young seedlings as long a growing period as possible, to establish themselves before the cold weather sets in to retard their growth. The varieties recommended for sowing in March are all suitable, but it is advisable where possible, to select a warm sheltered position. Transplant promptly any seedlings that are ready from early sowings.

MAY.

Seed of a number of varieties of the hardier plants can still be sown during May to provide a succession of bloom during the late Spring and early Summer. If sowing in the open, select a warm sheltered position. Strong growing Hardy Annuals, Biennials and Perennials, may still be sown. May is the month to make arrangements for ordering Roses and Deciduous Trees and Shrubs as well as most varieties of Evergreen Shrubs.

JUNE.

Except where a Glasshouse or Hotbed frame is available, seed sowing in the flower garden may be regarded as being practically at a standstill during June. Any really strong seedlings ready for transplanting can be moved, but weakly plants should be allowed to remain in the seed bed until the weather warms up, otherwise they are likely to damp off if transplanted in cold weather.

JULY.

July is more or less the month for preparatory work so as to have everything in readiness for the Spring, although towards the end of the month, where a Glasshouse or Hotbed Frame is available, early sowings may be made of some of the hardier Annuals, such as *Aster*, *Phlox Drummondii*, *Petunia*, *Shirley Poppy*, *Scabiosa*, *Centaurea*, *Salpiglossis*, *Ten-week Stocks*, etc.

AUGUST.

During some seasons, August marks the commencement of Spring planting, but as a rule it is not until the end of the month that the weather begins to warm up appreciably, and sowings depend entirely on the state of the weather. It is generally safe to sow the following hardier varieties in the open ground from about the middle of the month.

Ageratum, *Alyssum*, *Aquilegia*, *Antirrhinum*, *Calendula*, *Calliopsis*, *Candytuft*, *Carnation*, *Centaurea*, *Chrysanthemum*, *Clarkia*, *Delphinium*, *Dianthus*, *Dolichos*, *Eschscholtzia*, *Foxglove*, *Gaillardia*, *Godetia*, *Gypsophila*, *Hollyhock*, *Honesty*, *Hunneemannia*, *Iberis*, *Larkspur*, *Leptosyne*, *Lobelia*, *Linaria*, *Mathiola*, *Mignonette*, *Mimulus*, *Myosotis*, *Nemophila*, *Nigella*, *Pentstemon*, *Petunia*, *Phlox*, *Polyanthus*, *Poppy* (Shirley), *Salpiglossis*, *Scabiosa*, *Stock*, *Stokesia*, *Sweet Sultan*, *Sweet William*, *Verbena*, *Violet*, *Virginian Stock*, *Wallflower*.

At the end of the month in early districts sowings may be made of the more tender Annuals, such as *Balsam*, *Celosia*, *Cosmos*, *Salvia*, *Zinnia*, etc., so as to have early seedlings for planting out. Delicate plants, such as those mentioned, are better raised in a seed box at all times, even when sown when the weather has warmed up considerably.

WE OFFER ONLY THE CHOICEST STRAINS OF FLOWER AND VEGETABLE SEEDS.

MONTHLY CALENDAR FOR FLOWER GARDEN—Continued.

SEPTEMBER.

All the varieties recommended for August can also be sown this month.

September is the month for sowing the majority of Half-Hardy Annuals, although the more tender sorts should not be sown in the open ground until the middle of the month. The following are all suitable:—

Aretotis, Acacia, Amaranthus, Aster, Balsam, Begonia (Bedding), Boronia, Centaurea, Cockscorn, Cosmos, Celosia, Chianthus, Convolvulus, Calceolaria (in Glasshouse), Cineraria (in Glasshouse), Dahlia Eucalyptus, Gerbera, Gloxinia (in Glasshouse), Ipomaea (Convolvulus), Kochia, Lupin, Lupinus, Lantana, Marigold, Mina Lobata, Nicotiana, Nasturtium, Nemesis, Portulaca, Passiflora, Phaseolus, Phlox, Salvia, Sunflower, Tropaeolum, Zinnia.

Do not transplant any seedlings raised in Glasshouse or Hotbed Frame from early sowings until hardened off thoroughly, and then it is advisable to afford protection from the heat of the sun as well as from a possible frost, for a few days until the plants are well established.

OCTOBER.

The recommendations for September apply equally to October, and as the weather is very much milder by this time, seed of all tender Annuals can be raised with safety in the open garden. In addition to the list given above, seed may be sown in a Glasshouse of the following Greenhouse plants:—

Begonia (Tuberous-rooted), Coleus, Cyclamen, Primula (Greenhouse Varieties), Cineraria.

NOVEMBER.

Where water is available, late sowings may be made of tender Annuals, such as Balsam, Celosia, Zinnia, etc.

In the Glasshouse, sowings may be made of the following Greenhouse plants:—

Begonia (Tuberous-rooted), Coleus, Calceolaria, Cineraria, Cyclamen, Primula.

DECEMBER.

The recommendations for November apply equally to December, but very little can be done in the way of sowing seed unless plenty of water is available. From about the first week onwards, sowings may be made of the different flowering plants recommended for January, but seed of all these varieties must be sown in a canvas or calico frame and kept moist during the warm weather.

In the Glasshouse, sowings may still be made of Calceolaria, Cineraria, Cyclamen, and Primula.

HINTS ON RAISING SEEDLINGS IN A CALICO OR CANVAS FRAME DURING THE SUMMER MONTHS.

Construct a frame, the body of which should be about 9 to 12 inches high, and the length and breadth according to the requirements, with a frame of hardwood to fit on top, with canvas or calico tacked on. Calico is the better, as it admits more light, and is, therefore, not so apt to draw the seedlings. The top must be fastened down so that it cannot blow off in windy weather. The best position for the frame is on the south side of a wall or fence, and the soil in this should be rich and as free from weeds as possible. Sow the seeds in rows, about 4 inches apart, and cover with a light mulching of manure. The top of the frame should always be removed in the evening and during dull weather, otherwise the seedlings are liable to get drawn. When watering the seed never allow the water to gather on the surface soil; if it is allowed to do so it is liable to cake the soil, and seedlings will have difficulty in pushing through. It is essential that a watering can with a fine rose should be used, such as "Haws" patent. When watering the young seedlings give a light sprinkling over them, allowing the water to penetrate the soil before adding more; as soon as it has soaked well in renew sprinkling until satisfied that the water has thoroughly soaked through.

THE AUSTRALIAN GARDENER (22nd Edition)

By **LESLIE H. BRUNNING**

GENERAL LIST OF FLOWER SEEDS

Annuals.—Flower, produce seeds, and die the same year as they are sown.

Biennials.—Those which are sown in one year, and bear their flowers and seeds and die the next.

Perennials.—Those which grow and flower for several years, usually blooming the second year from seed.

Refer to Monthly Calendar for The Flower Garden, showing what seeds can be sown in each month from January to December.

SUBSTITUTES.—Should the stock of any variety ordered be exhausted, we shall, to save further delay, send in its place the most suitable substitute, unless instructed to the contrary.

FOR NOVELTIES AND SPECIALTIES IN FLOWER AND VEGETABLE SEEDS, SEE COLORED PAGES.

ABBREVIATIONS.

Times of Sowing.—(A) Sow in the Autumn; (S.) Sow in the Spring; (A.S.) Sow either in Autumn or Spring.

AGATHEA (A.S.) Perennial.

1. **AESTIVALIS (Flos Adonis)**—Scarlet, $\frac{1}{2}$ ft. 3d. pkt.

ADONIS (A.S.) Hardy Annual.

2. **COELESTIS (Blue Marguerite)** 6d. pkt.

AGERATUM (A.S.) Hardy Annual.

3. **BLUE BALL**—True blue color 6d. pkt.

DELPHINIUM

ANNUALS AND PERENNIALS.

Delphinium, Grendon Giant Hybrids.

"GRENDON GIANT HYBRIDS."

213. Our Grendon strain has been greatly admired, containing as it does all the shades of color to be found in this class of flower. It is impossible to describe the beautiful colorings of the flowers, they range through all shades of blue, from the darkest to the most delicate pale shades, mauve, pink, amethyst, lavender tints, etc., merging into one another and giving a shot silk appearance to many of the flowers. Others are self-colored in different tones of blue, some have white centres, others black or brown, the latter giving the spike of flower the appearance of being covered with bees. Both the spikes of bloom and the individual blooms are exceptionally large. Price: 2/- per Packet.

(For Seedlings, see Page 2.)

DELPHINIUM—Continued.

- 214. AZURE FAIRY**—Annual variety, producing flowers of a beautiful Cambridge blue; 12in. . . 6d. pkt.

260. **FLORIDA**—Golden-yellow flowers; 5 ft. 6d. pkt.
261. **MONOSPERMA**—White flowers; 10 ft. 6d. pkt.
262. **SPARTIUM JUNCEUM (Spanish Broom)**—Yellow; a well-known variety 6d. pkt.

- GERBERA (A.S.)** Perennial.
263. **JAMESONI HYBRIDS**—The seed offered is Australian saved, and can be relied on to be fresh. The colors include white, yellow, orange, gold, salmon, rose, ruby-red, lavender, violet and mauve, as well as the original scarlet Jamesoni. An excellent plant for growing in warm districts. Sow in Spring 1/6 pkt.

- GEUM (A.S.)** Hardy Perennial.
264. **MRS. BRADSHAW**—Double scarlet 6d. pkt.
265. **LADY STRATHEDEN**—Golden-yellow 6d. pkt.
266. **ORANGE QUEEN**—Orange-scarlet 9d. pkt.

- GLADIOLI (A.S.)** Hardy Perennial.
267. **CHOICE MIXED HYBRIDS** 6d. pkt.
268. **PFITZER'S NEW GIANT FLOWERED HYBRIDS**—This special strain contains many of the latest varieties of Gladioli 1/- pkt.

- GLOXINIA (S.)** Perennial.
269. **ERECT AND DROOPING SORTS, MIXED**—Sow the seed in a box or pan and keep in warm frame or hothouse 1/6 pkt.

- GODETIA** Hardy Annual.
270. **AZALEIFLORA FLORE PLENA**—Double pink flowers resembling an Azalea 6d. pkt.
271. **CHARMING**—Deep, satiny pink 6d. pkt.
272. **CRIMSON GLOW** 6d. pkt.
273. **GORGEOUS**—Vivid satiny crimson 6d. pkt.
274. **THE BRIDE**—White, blotched crimson 3d. pkt.
275. **CHOICE MIXED**—1½ ft. 1/6 1 oz.; 3d. pkt.

- GRASSES, ORNAMENTAL (A.S.)** Hardy Annuals.
276. **AGROSTIS NEBULOSA**—Graceful habit 3d. pkt.
277. **BRIZA MAXIMA (Large Quaking Grass)** 3d. pkt.
278. **ERAGROSTIS ELEGANS (Love Grass)** 3d. pkt.
279. **TRICHOLAENA ROSEA**—Feathery panicles 3d. pkt.
280. **ORNAMENTAL GRASSES, MIXED** 3d. pkt.

- GYPSOPHILA (A.S.)** Annuals & Perennials.
281. **ELEGANS CARMINEA**—Crimson (A.) 3d. pkt.
282. **ELEGANS ROSEA**—Deep rose (A.) 3d. pkt.
283. **ELEGANS GRANDIFLORA ALBA**—Pure white flowers; 1 ft. (A.) 2/- oz.; 3d. pkt.
284. **PANICULATA**—Perennial; white flowers 6d. pkt.
285. **PANICULATA, FL. PL.**—Double flowering form of Paniculata, bearing white flowers (P.) 1/- pkt.

Few realise the value of *Gypsophila elegans alba* for mixing with other flowers, the fairy-like white flowers take the place of fern. By making frequent sowings it can be had in bloom throughout the year.

- HELIOTROPE (A.S.)** Hardy Perennial.
286. **REGALE, MIXED**—A selected strain of the old English Heliotrope or Cherry Pie 6d. pkt.
HEUCHERA (A.S.) Hardy Perennial.
287. **SANGUINEA**—Rich coral red flowers 6d. pkt.
288. **HYBRIDA, MIXED** 6d. pkt.

- Hollyhock, Chater's Double Prize Strain, No. 289.
HOLLYHOCK (A.S.) Perennial.
289. **CHATER'S DOUBLE PRIZE STRAIN, MIXED**—Saved from the finest selected varieties 9d. pkt.

HOLLYHOCK, "IMPERATOR." FOR FULL DESCRIPTION, SEE NOVELTY AND SPECIALTY PAGES.

290. **DOUBLE-FLOWERING, MIXED** 6d. pkt.
291. **SINGLE, MIXED**—A choice strain 6d. pkt.
HONESTY (Satin Flower) (A.S.) Biennial.
292. **MIXED COLORS**—Useful for cut bloom or for the dry silvery moon-shaped pods 6d. pkt.
HUMULUS (S.) Annual Climber.
293. **JAPONICA VARIEGATA (Japanese Hop)**—Leaves beautifully variegated 6d. pkt.
HUNNEMANNIA (A.S.) Perennial.
The Hunnemannia will not stand transplanting, and seed must be sown thinly where the plants are to remain.
294. **FUMARIAEFOLIA**—Excellent for cut bloom. Bright lemon yellow tulip-shaped flowers 6d. pkt.
IBERIS (Per. Candytuft) (A.S.) Hardy Perennial.
295. **GIBALTARICA**—Lilac; 1 ft. 6d. pkt.
KUDZU VINE (A.S.) Perennial Climber.
296. **PUERARIA THUNBERGIANA**—Purplish-violet Wistaria-like flowers 6d. pkt.
KOCHIA (Summer Cypress) (S.) Annual.
297. **TRICOPHYLLA CHILDSII**—A charming Summer annual foliage plant, which changes in the Autumn to blood-red 6d. pkt.
LANTANA (A.S.) Hardy Perennial.
298. **DWARF COMPACT BEDDING HYBRIDS**—Extremely useful for bedding 6d. pkt.

WE SPECIALISE IN BOX-GROWN SEEDLINGS.

WE SPECIALISE IN LARKSPURS, They are splendid for cutting

LARKSPUR (Annual Delphiniums)

One of the most valuable of our hardy annuals, producing flower spikes 6 to 8 inches in length of beautiful colors and graceful foliage.

TALL BRANCHING DOUBLE STOCK FLOWERED.

Collection of 6 Named Varieties for 2/6.

- 299. ADMIRATION—Deep lilac 6d. pkt.
- 300. AZURE BEAUTY—Azure or sky-blue 6d. pkt.
- 301. EMPRESS ROSE—A rich rhodonite pink changing to Hermosa pink 6d. pkt.
- 302. EXQUISITE—Beautiful soft pink 6d. pkt.
- 303. GLEN EIRA—Bright violet 6d. pkt.
- 304. LA FRANCE—Salmon pink 6d. pkt.

LARKSPUR, "GIANT IMPERIAL"

SEE NOVELTY & SPECIALTY PAGES.

- 305. LORD NELSON—Dark blue 6d. pkt.
- 306. ORESTES—Pure white 6d. pkt.
- 307. ROSY SCARLET—A beautiful shade 6d. pkt.
- 308. ZURLINGA—Rosy mauve 6d. pkt.
- 309. CHOICE MIXED 1/- ¼ oz.; 6d. pkt.
- 310. DWARF ROCKET, PINK DELIGHT—A fine new variety; flowers soft pink 6d. pkt.
- 311. DWARF ROCKET, MIXED, 1/- ¼ oz.; 3d. pkt.

LAVENDER (A.S.) Hardy Perennial.

- 312. THE TRUE ENGLISH LAVENDER—Useful for sachets, etc. Height 3 ft. 2/- ¼ oz.; 6d. pkt.

LEPTOSYNE MARITIMA (A.S.) Perennial.

- 313. GOLDEN-YELLOW MARGUERITE 1/- ¼ oz.; 6d. pkt.

LINARIA (A.S.) Annual and Perennial.

- 314. EXCELSIOR STRAIN, MIXED (Annual) 6d. pkt.
- 315. CYMBALARIA (Kenilworth Ivy)—Perennial creeping plant, dainty mauve flowers. Suitable for rockeries 6d. pkt.

LINUM (A.S.) Hardy Annual.

- 316. GRANDIFLORUM RUBRUM—Excellent for clumps or edgings; flowers scarlet 3d. pkt.

LOBELIA (A.S.) Hardy Annual.

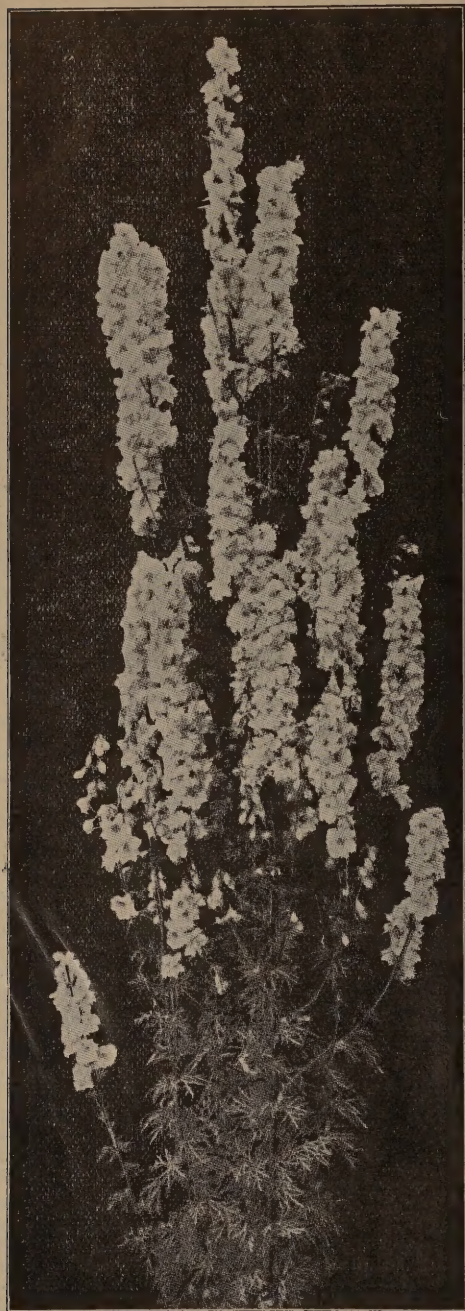

- 317. AZUREA—Light azure-blue 6d. pkt.

LOBELIA, "BLUE STONE," Re-Selected.

SEE NOVELTY & SPECIALTY PAGES.

- 318. CRYSTAL PALACE COMPACTA — Flowers rich deep blue 6/- ¼ oz.; 6d. pkt.
- 319. HYBRIDA, SAPPHIRE—A trailing variety with blue oculate flowers 6d. pkt.

The Home Gardener will save much time and expense by purchasing a copy of the 22nd Edition "AUSTRALIAN GARDENER," price 7/11 (Postage 8d. extra) and following the directions contained therein.

Larkspur, Tall Branching Double Stock Flowered.

LUPINUS

(A.S.) HARDY PERENNIALS.

These beautiful Hardy Perennials are excellent both for providing cut bloom for indoor decoration and for show in the garden. If the blooms are kept cut and the plants prevented from seeding, flowers may be had for a period of four to five months.

—LUPINUS—

PANSY

OUR GREAT SPECIALTY.
(A.S.) HARDY PERENNIAL.

We make Pansies one of our specialties, and spare no expense or trouble in procuring, direct from the growers, the finest strains obtainable, and have every confidence in recommending them as being very superior.

"INCOMPARABLE"

(Gill & Searle's Special Mixture)

367. The mixture "Par excellence" in Pansy seed. We have every confidence in stating that no mixture of Pansy seed throughout the world is more consistent in producing so high a percentage of first-class blooms as "Incomparable." Numerous testimonials received from time to time from all parts of Australasia, together with the prizes won at various shows, testify to the high quality of the strain. The newest introductions of "Known and tested Merit" are each year added to the strain, and no expense is spared in maintaining and improving the standard of this special mixture. In 2/6 and 5/- Packets.

368. BATH'S EMPRESS, EXTRA SELECTED STRAIN, MIXED—One of the most striking and richest in color of all Pansies, and more floriferous than most of the other leading strains. In 2/6 and 5/- pkts.

Pansy, Gill & Searle's Incomparable Strain.

—PANSY—

"GRENDON BLUE EXHIBITION."
SEE NOVELTY & SPECIALTY PAGES.

369. ENGLISH AND SCOTCH, MIXED—Contains many fine varieties, covering a very wide range of shades. A very choice strain. 1/6 pkt.
370. MASTERPIECE, MIXED—Flowers large, beautifully blotched and curled, rich colors. 1/- pkt.
371. NON PLUS ULTRA, MIXED—A reliable and thoroughly proved strain, containing many fine colors. Highly recommended. 1/- pkt.
372. MADAME PERRET—Attractive blend of wine colored tones, with lighter shaded edges. 6d. pkt.

PANSY, "ROGGLI'S GIANTS."

IMPROVED EXHIBITION STRAIN.

Awarded prizes wherever shown. See Novelty and Specialty Pages for full description, also Colored Plate.

373. PEACOCK IMPROVED — Flowers of the most beautiful shades of blue and violet. 1/- pkt.
374. LORD BEACONFIELD — Deep purple-violet shaded to very pale blue on the lower part of the flower. 6d. pkt.
375. FAIRY QUEEN—Flowers azure blue with white edge. 6d. pkt.

Winter Flowering Varieties.

The Winter flowering Pansies are particularly valuable for bedding and bordering, and on account of their early flowering qualities.

Collection of 8 Separate Colors, 3/6.

376. ARCTIC KING—Snow white flowers. 6d. pkt.
377. CELESTIAL QUEEN—Sky blue. 6d. pkt.
378. ICE KING—White with dark eye. 6d. pkt.
379. MARCHIONESS—Dark velvety purple. 6d. pkt.

RANUNCULUS
"CLAREMONT" SUPER HYBRID No. 5
(Re-selected Strain)

STINTON & SON

CLAREMONT NURSERIES - - GEELONG

PROCURABLE IN MELBOURNE FROM

GILL & SEARLE Pty. Ltd., 73 Elizabeth St., Melbourne, C1.

GILL & SEARLE PTY. LTD.,

Seed and Plant Merchants, 73 Elizabeth Street, MELBOURNE, C1.

RANUNCULUS

"Claremont" Super Hybrid No. 5

*(Award of Merit, Nurserymen and Seedsmen's Association
of Victoria)*

This superior strain of Ranunculus is now universally recognised as the finest strain extant, and has a world-wide sale. Regular shipments are supplied to Great Britain, America, and European countries, including even Holland, the recognised hub of the Bulb Markets of the world. The strain was evolved at "Claremont" by Stinton, and immediately received the Award of Merit of the Nurserymen and Seedsmen's Association of Victoria. Many growers have since taken this strain for fusion with lines of their own, which is undoubtedly proved by the percentage of blooms of distinct No. 5 type in the various strains at present on the market.

REMEMBER! Stinton was the originator of "Claremont" Super Hybrid No. 5, and is continually improving this famous strain of Ranunculus. The strain has been still further improved this season, and now embraces the finest flowers only.

Novelties and Specialties In Flower and Vegetable Seeds

NOTE—The descriptions given are those of the Raisers or Introducers.

PANSY, Roggli's Giants

IMPROVED EXHIBITION STRAIN

Awarded Prizes wherever Shown.

The flowers of this improved strain are of enormous size, measuring from 3 to 3½ inches in diameter. They are perfectly round, with overlapping petals borne on long stalks well above the remarkably luxuriant foliage. It is not only the size of the flowers that makes these Pansies so attractive, but the glorious shades of color, and their exceptional brilliancy, many of them possessing a velvety sheen which greatly enhances their beauty. Practically all flowers are 3 to 5 blotched and original color combinations.

The accompanying illustration, which is of a flower measuring 3½ inches across and produced from a plant grown in sandy soil, and without any special attention. **AN EXHIBITION STRAIN OF EXCEPTIONAL MERIT.**

Seed: 2/6 Pkt.; Larger Pkt., 5/-

DO NOT CONFUSE OUR EXHIBITION MIXTURE WITH THE ORDINARY STRAIN OF ROGGLI'S PANSIES, SOLD BY SOME SEED VENDORS AT A CHEAPER RATE.

OUR "EXHIBITION STRAIN" IS MUCH SUPERIOR AND STILL HOLDS PRIDE OF PLACE FOR EXHIBITION PURPOSES.

Pansy, Roggli's Giants Improved Exhibition Strain.

GRENDON BLUE EXHIBITION STRAIN

By far the largest and most magnificent rich deep velvety blue Pansy. Ideal for bedding purposes.

Seed: 2/6 Packet; Larger Packet, 5/-.

DELPHINIUM ELATUM, "Iceberg"

This is the first white perennial Delphinium which comes true from seed. It belongs to the elatum class, and grows 48 inches high. The long spikes are thickly covered with large pure white blooms. These plants are especially noted for their strong healthy growth. The large white spikes are particularly beautiful, and form an effective contrast to dark and pale blue varieties.

Price: 1/3 per Packet.

LARKSPUR, Giant Imperial

These Larkspurs are ideal for cut flowers, as the flower stems 3 to 4 feet long, branch from the base of the plant. This group really originated with the introduction of Exquisite Pink Improved and Exquisite Rose, both of which received an "Award of Merit" from the Royal Horticultural Society in 1930. **BLUE SPIRE**—Intense deep Oxford blue.

EXQUISITE ROSE—Rose pink.

LILAC SPIRE—Lilac.

MISS CALIFORNIA—Deep pink, shaded salmon.

PEACH BLOSSOM—Clear light pink.

Price: 9d. per Packet; Collection of 5 packets, 3/3.

“Gartref” Iceland Poppy

Highly commended and granted Award of Merit by the Royal Horticultural Society of Victoria.

SEE ILLUSTRATION ON FRONT COVER

On exhibition the strain has been well presented, and in successive years the Royal Horticultural Society of Victoria have “Commended,” “Highly Commended,” and granted an “Award of Merit,” officially recognising it as “sufficiently in advance of previous strains to be considered distinct.”

For the Creation of this beautiful and distinct type of Iceland Poppies, the gardening public is indebted to Mr. Fred M. Danks, “Gartref,” Balwyn Road, Canterbury, who for seven years has worked on definite lines of pedigree breeding in evolving the beautiful colors we now offer in this mixture. By devoting his time in improving this very popular and useful class of plants, Mr. Danks has not only benefited the gardening world, but through his generosity in distributing the proceeds from the sale of “Gartref” Poppy seed, Charities have benefited to a considerable extent.

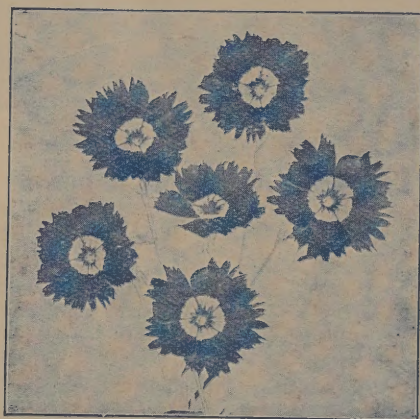

We have thoroughly tested this strain for two seasons in our Nurseries, and can recommend it with confidence.

THE “Gartref” strain of Iceland Poppies has been re-selected from the range of art shades, and, as a distinctive feature, most of the blooms have dark edges to the petals, both in dainty tonings and in sharp contrast to the base colorings. Other characteristics have also appeared—a dark centre both in light and brilliant contrast, and a dainty fluting of the petals. The size is large, many blooms measuring $4\frac{1}{2}$ inches across, and some as much as 5 inches. And variations in the combination of edgings and centres with the many shades is given great variety. The pink tones are mainly in the shell pink to carmine range; the yellows in the cream to gold tonings, and the amber to apricot colorings are free from brown shades.

Among particularly outstanding colors are a range of bronzes (a copper red suffused with gold) a clear champagne, a rich salmon and a pink verging on the lavender. The edgings form a dainty pencil line to a neat, gradually shading band, and have variety both in type and color, and the centres, in many instances, show gold and scarlet, with all the radiating brilliance of a sunrise. The selecting of the strain over a period of seven years on definite lines of pedigree breeding has resulted in a control of the balance and trueness of type.

In continuation of the work, fresh features are appearing, later to be incorporated in the strain, or, where sufficiently distinctive, to be separated, and with successive re-selections outstanding types will become more general.

Seed, 1/6 Packet; Larger Packet, 2/6. Seedlings, per Doz., 1/6; 25 for 2/6; per 100, 8/-.
Freight Extra. Available from January to August.

Dianthus, Highland Queen.

DIANTHUS, Highland Queen

This is the finest Dianthus extant, and is ideal for rock-gardens, beds, and front row borders. It is a grand grower, very prolific, almost perpetual, and very brilliant in color, a dazzling scarlet vermilion.

Price: 1/- per Packet.

DOUBLE BORDER CARNATIONS Mixed Colors

The flowers are of immense size, measuring from 11 to 21 inches in diameter, and are borne on long, upright stems. This new strain of Border Carnations produces approximately 80 per cent. of double blooms.

Price: 1/- per Packet.

Antirrhinum, "Majestic."

ANTIRRHINUM
Nanum Grandiflorum Majestic

The "Majestic" class will undoubtedly add to the ever increasing popularity of Antirrhinums for Summer bedding. The plants average about 18 inches in height and produce numerous spikes of enormous blooms. Highly recommended.

ORANGE KING—Fine, clear orange.

RED CHIEF—Rich, deep scarlet.

SUNSET—Bright terra cotta, shading into rosy salmon.

TWILIGHT—Delicate apricot, with yellow and salmon shading.

VICTORY—Rich terra cotta orange, shading to yellow.

Price: 9d. per Packet; Collection of 5 separate Colors, 3/3.

ANTIRRHINUM, Nanum Giant Mixed

This new strain produces flowers of immense size. The plants are of exceptionally sturdy habit. Scarlets in plenty are included, as well as wonderful shades of pink and orange, and every imaginable tone of color.

Price: 9d. per Packet.

ANTIRRHINUM

Semi-Dwarf Nanum Grandiflorum

We have pleasure in offering the following new introductions, of outstanding merit, in this popular flower.

ADVANCE—Brilliant orange scarlet, yellow spot, white throat. Compact habit.

CEYLON COURT—Best yellow variety; finely placed flowers on long stems.

CHERRY RIPE—Terra cotta red, suffused with cerise.

CHEVIOT MAID—Rose pink, early and free flowering.

HELEN—A beautiful shade of salmon. Free flowering.

JENNIE SCHNEIDER—Soft rose, a popular shade.

LAURA—Deep rose, well placed flowers.

TANGERINE—Brilliant fiery orange of great intensity, holding its orange brilliancy until the flowers drop.

Price: 9d. per Packet; Collection of 6 Separate Colors, 4/-

ANTIRRHINUM

Majus Grandiflorum Large Flowered

FELTHAM BEAUTY—Delightful rose shade.

PRINCESS ELIZABETH—Delightful soft shade of pink.

RUBY—Described as a pure ruby color.

Price: 9d. per Packet; 3 Separate Packets for 2/-.

NEW FLOWERING EUCALYPTUS
"Steedmanii"

The flowers are golden yellow, while the operculum or cap is a beautiful red shade. The showy flowers are nicely arranged on the ends of the graceful branches. The bark of the tree is almost red, and shines as if polished, and whilst most barks peel off longways, this species sheds its bark in circles. The tree grows to an average height of about 15 to 20 feet.

Price: 1/6 per Packet.

ASTER, Golden Salmon

The blooms of Aster "Golden Salmon," are first a pure salmon-yellow, becoming a brilliant salmon-rose when full blown. Each flower is finely formed, perfectly round, and measures about 3 inches across. The durability of these flowers merits attention; when cut they remain fresh for two or three weeks, and do not suffer in long distance transport. A single plant produces an average from 40 to 50 blooms.

Price: 1/- per Packet.

PERENNIAL LUPINS, GRENDON MODERN STRAIN.

PERENNIAL LUPINS GRENDON MODERN STRAIN.

We can thoroughly recommend these beautiful Hybrid Perennial Lupins. The strain offered contains a wonderful range of colors which run through all shades of pink, from the palest to deep rose pink, from light mauve to dark violet, from yellow through varying sunset and art shades, besides combinations of colors that are difficult to describe, but all of great beauty. They make a glorious display and are splendid for cutting.

Price: 9d. per Packet.
FOR SEEDLINGS SEE PAGE 3.

DELPHINIUM, Belladonna Improved

A greatly improved strain of the popular Belladonna, with a brighter and larger blue flower, a more vigorous and taller growth, and excelling any other Belladonna we have ever seen for continuous blooming. It comes true from seed.

Price: 2/- per Packet (Stock Limited).

NASTURTIUM

New Double Semi-Dwarf Sweet Scented Golden Gleam

These plants develop a tendency to run or climb on moist soils, but if pegged down they throw flowers profusely at every joint. If the centre is pinched out, they form fine globular plants full of bloom, and such blooms three inches diameter on footstalks 7 to 9 inches long!

A bouquet of these attractive yellow flowers distinctly double in form will fill a room with pleasing fragrance, besides being a delight to the beauty-loving eye. Also, the stems are rather stiff, and long enough to be bunched, something new for Nasturtiums.

In fact, we believe the new race is as distinct an advance over the old type of Nasturtiums as the Dahlia-flowered Zinnia is over the original type, or Spencer Sweet Peas over Grandiflora.

Price: 1/- per Packet.

Ranunculus. Gill & Searle's Exhibition Strain.

HOLLYHOCK, Double Imperator

A wonderful new acquisition in Hollyhocks. The plants grow to a height of 4½ to 5½ feet, and display the habits of the well-known Scottish Hollyhock. The flowers measure from 5½ to 6½ inches across, and in appearance are quite unlike anything as yet known. The color display is extraordinarily rich, graduating from Dark Scarlet to Cream, with Pink edging and Salmon-colored collar, or Canary Yellow centre with Pink collar, or the reverse, and many other attractive combinations.

Price: 1/- per Packet.

A New Race of Hardy Annual SWEET WIVELSFIELD

Dianthus Allwoodii X Sweet William (*Dianthus Barbatus*) will become as popular as *Antirrhinums*, *Stocks*, *Asters*, etc. It is distinct in habit and freedom of growth, method of flowering, formation of tissues, a greater variety of coloring than the so-called Annual Sweet William. Few plants can compare with Sweet Wivelsfield for wealth of color and lengthy season of flowering. Sow either in the Autumn or Spring.

Price: 9d. per Packet.

WALLFLOWER Rupert's Single Prize

The plants are low, bushy and of compact habit. The foliage is light green, and the flowers are extremely large. The color is a fiery grenade-red of singular beauty.

Price: 9d. per Packet.

RANUNCULUS

Gill & Searle's Exhibition Strain, Mixed (Double Type)

This superior strain of *Ranunculus* is of robust habit and very free flowering. The flowers are double, of immense size, and combine every possible shade of color. The plants are vigorous, and produce flowers on long, erect stems, providing excellent material for cutting, and are unsurpassed for table decoration.

Price: 1/- per Packet.

URSINIA ANETHOIDES Jewels of the Veldt

This is the most attractive and useful of the many species of *Ursinia* (native to South Africa), being easy to grow and the blossoms remaining open until dark. The plants form large tufts of leaves, from which spring up long wiry stems, bearing flowers of rich orange-yellow, adorned by a beautiful ring of deep purple with spots of darker shade. This very showy plant will do excellent service both for cutting and garden decoration.

Price: 1/- per Packet.

CARNATION, Chabaud's Enfante de Nice Mixed Colors

A French hybrid strain, unquestionably the best of the early flowering perpetual Carnations grown from seed. The magnificent flowers, sometimes 2½ to 3 inches in diameter, are borne on sturdy stems. While the flower is immense in size, the calyx does not split, which makes this mixture one of the finest both for florists and private gardeners.

Price: 1/3 per Packet.

LOBELIA, Blue Stone Re-Selected

Lobelia Blue Stone is the result of many years of single plant selection, and we do not hesitate to say that no finer *Blue Lobelia* can be had from seed.

Price: 1/- per Packet.

VENIDIUM FASTUOSUM

A half-hardy South African annual which can be grown either outdoors or under glass. About 2 to 3 feet high, with long serrated leaves and flowers 3 inches across of a most brilliant orange, with dark centre and black-purple zone. Very effective.

Price: 1/- per Packet.

Marigold, African "All-Double."

MARIGOLD, African "All-Double"

A new strain of African Marigold which we have developed, and which comes a very high percentage of large closely quilled double heads and a small percentage of loosely formed heads, which are equally beautiful and useful for cutting. The singles have been practically eliminated.

Orange "All Double," Lemon "All Double."

Price: 9d. per Packet each.

MARIGOLD, Guinea Gold

This is a very distinct Marigold, of graceful pyramidal habit, growing 2 to 2½ feet high, and producing 30 to 40 flowers, 2 to 2½ inches across, of a brilliant shade of orange flushed with gold. Unlike the ordinary African Marigold, this new variety produces no single flowers, but practically 100 per cent. semi-double. The characteristic Marigold odour, too, is much less pungent than in other sorts. In order to obtain the best results, we recommend early sowing.

Price: 1/- per Packet.

SWEET PEA

Early Winter Flowering

We have pleasure in offering below eight entirely new Sweet Peas which we feel sure will be welcomed by all lovers of this flower.

LADY GAY—Delightful shade of soft shrimp-pink.

PEACHES—New shade of bright apricot-rose, with a touch of lemon on the keel.

VALENCIA—Color, bright orange, sun-proof; immense vigor in growth, length of stems and size of blooms.

MAJESTIC ROSE—Deep brilliant rose, pink shade; immense flowers borne on long stems.

BLUE BONNET—Extra large, fine, deep blue flowers. The color is evenly distributed, with not the slightest trace of mauve.

ROSE MARIE—A pink shade that surpasses all others in brilliancy and size; cream tints merging with rose, producing an enchanting shade. The massive flowers are beautifully ruffled and frilled.

RED CROSS—A glowing poppy-scarlet. Flowers of great size; an improvement on all scarlet sorts.

SPRINGSONG—Beautiful salmon-pink shade; free grower and profuse bloomer.

Price: 9d. per Packet; Collection of 8 Packets, 5/-.

SWEET PEA, Summer Flowering (Spencer Type)

BON BON—Rich pink, with a glorious shading of amber, combined with great vigor of growth, tremendous length of stem and flowers of enormous size.

CATTLEYA QUEEN—An entirely new color that will prove valuable as a decorative variety. It is a fine shade of cattleya mauve, veined with a delicate rose, giving a very pleasing and unique combination.

PIRATE GOLD—Gold orange; quite a new shade in this group. It withstands our hot climate better than any other variety in this color class. Pirate Gold is a strong vigorous grower; the flowers are well formed, and its color is the most pleasing of the golden orange group.

ROSIE—Deep rose pink. Richer and deeper in color than Pinkie, with all the vigor and robustness necessary to make it a first-class Sweet Pea. Rosie is vastly superior to all other varieties in the rose-pink class, and easily tops the list of varieties such as Hercules, Hebe and Pinkie.

Price: 9d. per Packet; Set of 4 separate colors, 2/6.

POPPY

Ranunculus Flowered, Double Pompadour

In this Novelty we have the result of continued reselection, and we have secured a very attractive and improved form of the old Ranunculus-flowered Poppy. The range of colors is immense, and seldom have we seen such beautiful tones. The delicate picoteed flowers, which are to be found in abundance, are particularly attractive.

Price: 9d. per Packet.

A New Race of Dwarf Bedding Dahlias UNWIN'S DWARF HYBRIDS

The Outcome of 10 years' Scientific Hybridization and Selection.

This valuable new race of dwarf bedding Dahlias is the result of crossing Coltness Gem with the very best varieties of Charm (Miniature Paeony Flowered). The Hybrids are very precocious, blooming within 3 to 3½ months from the time of sowing. They are extremely free flowering, and embrace a most charming and very wide color range; indeed, no two plants are exactly alike.

They may be planted as closely as 18 to 20 inches apart, rarely exceed 24 inches in height, and require no stakes. Though primarily intended for bedding purposes, they make very fine cut flowers indeed. In our opinion, there is no late summer and autumn flowering subject which is more effective, more easily grown, and less expensive than these Hybrids.

Price: 1/- per Packet.

Calendula, "Golden Radio."

CALENDULA, "Golden Radio"

It is our belief that this new introduction will become even more popular than "Radio." It has all the attractive characteristics of that variety, and, in addition, is a beautiful Golden color. Now offered for the first time in Australia.

Price: 1/- per Packet.

MECONOPSIS

BAILEYI—The new and beautiful blue Thibetan Poppy, which has been so finely grown at Chelsea, England. It is a graceful plant, with downy pale green leaves and blue pendent flowers, four inches across, carried on stems about 2 feet high. Hardy perennial, thriving best in shaded position.

Price: 1/6 per Packet.

ZINNIA, Lilliput Improved Mixed Colors

The above type is very desirable for bedding and bordering, the plants growing about 1 foot high. The small button-like fully double flowers are produced on long stems, being suitable for cutting and florists' use.

Price: 9d. per Packet.

Zinnia, Elegans Double, Cut and Come Again.

ZINNIA, Elegans Double CUT AND COME AGAIN.

A group with double, perfectly formed, medium sized flowers bred with long stems; exceptionally fine for cut flowers. This is a cut-and-come-again group, and is especially fine for massing in the garden, and produces a continuous succession of cut flowers throughout the summer.

Separate Colors:

Bright Scarlet. Canary Yellow. Crimson.
Golden Yellow Salmon Rose.

Price: 9d. per Packet; Collection of 5 separate Colors, 2/-; Mixed Colors, 9d. per Packet.

GAILLARDIA, Grandiflora Bremen

Flowers Coppery-scarlet with a Dark Brown disc which, according to the raiser, comes 60 per cent true from seed. The plants attain a height of 2½ feet, and the flowers measure 3 inches across. Ideal for cutting.

Price: 1/- per Packet.

CARROT, Ideal

This is a new Carrot of French origin, which we believe to be a first-class variety where quality is the main consideration. It is of the same type as Nantes, but considerably quicker in maturing and finer in quality. It is coreless and has tender, almost transparent flesh of rich color. Although it has few leaves, "Ideal" is a very quick and vigorous grower, and we feel sure it will be found an ideal Carrot for the garden, and for market gardeners who wish to supply produce of extra good quality.

Price: 9d. per Packet.

CAULIFLOWER, Winter Mammoth

Large-size dwarf, compact habit of growth, with very firm, white heads. Sow the seed in December and transplant during February. It is ready for cutting during July-August.

Price: 1/- per Packet.

LETTUCE, Feltham King

A splendid Lettuce, large yet compact, crisp solid hearts, bright medium color; very long standing and an excellent variety in every way.

Price: 1/- per Packet.

PARSLEY, Green Gem

We have been working up this wonderful strain of Parsley for a number of years, during which time we have made a point of testing it alongside every other speciality strain of Parsley we have seen offered, and we are quite satisfied that in "Green Gem" we have a strain that is up to first-class novelty standard. The plant is of consistently rich deep green—far richer than any of the other specialities against which it has been tested. In addition to which it has a most exquisitely and closely curled and compact habit, which we believe to be unequalled by any other strain.

Price: 9d. per Packet.

RADISH, Scarlet Ball

In this new Radish, the roots are completely ball-shaped, of a rich glowing scarlet, with a very fine tap-root, and remarkably quick in forming. The foliage is small.

Price: 9d. per Packet.

TOMATO, Grendon Prolific

A remarkably new variety of the extra early red or scarlet type. Not quite so early as "Earliana," though there are only a few days' difference, and "Grendon Prolific" yields a much heavier crop of larger, more uniform and more attractive fruits. A most profitable extra early sort.

Price: 1/- per Packet.

Plants obtainable from August to November.

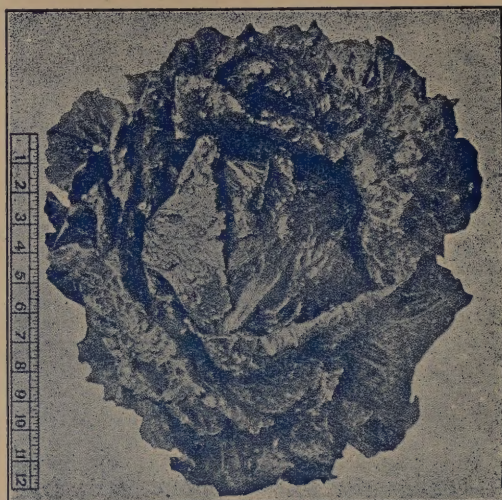

Price: 1/6 per Dozen; 10/- per 100 (Freight Extra).

THE WONDERFUL "SEEDLESS" LETTUCE

The large, firm hearts of this particular Lettuce are such as to delight the eye of any housewife. Every one of the crisp, bright green leaves can be used, and their tenderness and flavor are retained to the last.

To the gardener it will appeal on account of the fact that it does not easily run to seed—in fact, it has been with difficulty that we have obtained sufficient seed from our stock plants to supply the demand.

Price: 1/- per Packet (Stock Limited).

Seedless Lettuce.

EXTRA EARLY GARDEN AND MARKET CABBAGE "Greyhound"

We have pleasure in introducing and recommending this entirely new and distinct strain of Cabbage as the most striking and quickest developing Cabbage we have ever seen.

It is of an attractive, glaucous appearance, has extremely few outer leaves, good-sized hearts, somewhat pointed and broad-based, solid and weighty; in fact, in proportion to the size of the complete plants the hearts are really large. It is of such compact habit that it can with advantage be planted more closely than is usual with other sorts. Its culinary qualities leave nothing to be desired.

Price: 1/- per Packet.

PHACELIA (A.S.) Hardy Annual.
417. **CAMPANULARIA**—Flowers rich deep blue, very pretty free flowering plants 6d. pkt.

PHASEOLUS CARACALLA (A.S.) Perennial.
418. **SNAIL CREEPER**—Sweet-scented white and purple flowers 6d. pkt.

Phlox Drummondii

HARDY ANNUALS. Gill & Searle's Special Strains.

This is one of the prettiest Annuals grown. They continue in bloom, till late in Autumn, and for Summer bedding are unequalled, their brilliant and varied colors keeping the garden gay throughout the Summer. The best results will be obtained by sowing the seeds where the plants are to remain.

"GRANDIFLORA," MIXED.

GILL & SEARLE'S SPECIAL STRAIN.

419. Unrivalled strain for richness and brilliancy of colors, size of blooms, and bushy, floriferous plants. Our strain is of very superior quality, unsurpassed by any in commerce.

RANUNCULUS

"Claremont" Super Hybrids No. 5

(AWARD OF MERIT, NURSEYRMEN AND SEEDSMEN'S ASSOCIATION OF VICTORIA.)

When evolving this new strain of Ranunculus, the hybridizers had in view, increased length of stems and size of flowers, combined with a greater number of petals and a possibility of extending the large range of colors already to be found in our high-class strains. A trial of these improved creations should be convincing proof that the hybridizer's ambition has been realized, and we now have pleasure in offering an improved strain of this deservedly popular flower, which is equally valuable for cutting purposes as it is for garden decoration.

SOLD ONLY IN SEALED PACKETS.

Price: 2/6 per dozen; 25 for 4/6; 50 for 8/-; 100 for 15/-; 500 for 60/-; 1000 for 100/-.

CORYNOCALYX (Sugar Gum)—A very rapid growing
variety 2/- oz.; 22/6 lb.

CORYNOCALYX (Dwarf-Growing Variety)

This variety is preferable to the ordinary
Sugar Gum for shelter. The branches are car-
ried well down towards the ground, and the
foliage is much thicker than in the old variety,
thus rendering it more valuable for this par-
ticular purpose. It can be highly recommended
for the Western District. Height 20 feet.

1/- pkt.; 3/- per oz.

CORYMBOSA (Bloodwood) 3/6 oz.
CREBRA (Ironbark of N.S.W.) 3/6 oz.

GUNNII (Cider Tree)—Useful timber tree 3/6 oz.
HEMIPHLOIA (Common Box) 3/- oz.
LEHMANNI (Var. Cornuta) 3/- oz.
LEUCOXYLON (Ironbark Gum) 3/- oz.
*LEUCOXYLON ROSEA—Pink flowers 1/- pkt.
LONGIFOLIA (Woolly Butt) 3/- oz.
*MACROCARPA—Flowers dark crimson, somewhat
darker than E. Ficifolia, but the individual flower
is much larger, about 3 or 4 inches in diameter.
The foliage is of peculiar shape, resembling that of
E. Globulus, and tough, with mealy whitish appear-
ance. A shrubby variety 1/6 pkt.
MACARTHURI (River Woolly Butt) 3/6 oz.
MACRANDRA (Salt River Shrubby Gum) 1/- pkt.
MACULATA (Spotted Gum of N.S.W.) 3/6 oz.

Vegetable Seeds

ATTENTION IS DRAWN TO CONDITIONS OF SALE AND NON-WARRANTY CLAUSE ON INTRODUCTION PAGE.

Market Gardeners, Institutions, etc., requiring seeds in large quantities, should write for special prices. We have made prices as reasonable as possible, commensurate with first-class quality, in this Catalog, yet where a number of pounds or bushels are wanted, we can frequently supply at a lower price than by the single pound or bushel.

Flower and Vegetable Seeds in packets, with the exception of Peas, Beans and Sweet Corn, are Post Free. No half packets will be supplied.

The times given for the sowing of Vegetable Seeds refer to Melbourne and surrounding districts, and due allowance must be made either earlier or later for climatic conditions.

New Garden Pea, "Greatpod"

Main Crop Variety, recently introduced by us
as No. 73.

New Garden Pea, "Greatpod"

This name was selected by competition from a large number of entries submitted by our clients, and from the numerous and excellent reports has proved worthy of the name "GREATPOD."

We have no hesitation in recommending this Main Crop Pea. It is a magnificent cropping quality. The pods are large, very dark green in color and mostly produced in pairs—10 to 12 Peas in a pod, of excellent flavor. Its constitution is exceedingly robust, and it has fine eating qualities. We are receiving splendid reports in its favor throughout the country.

Price, 9d. per packet, 2/9 per lb., Post Free

PEAS—Continued.

SUGAR OR EDIBLE PODDED PEAS

Too well-known to need description. Hardy Perennial. Sow 30 to 40 lbs. to the acre.

RYE GRASS, WIMMERA (*Lolium Subulatum*).

Grows well in the Wimmera, Mallee, and other warm districts. If sown alone, 40 lbs. to the acre.

RYE GRASS, WESTERN WOLTHS (*Lolium Western Woldicum*).

A most productive forage and pasture grass. Of wonderful vitality, and will grow on sodden soil. Sow 40 lbs. to the acre.

RYE GRASS, ITALIAN (*Lolium Italicum*).

If sown alone, 40 lbs. to the acre.

RYE GRASS. VICTORIAN OR WESTERN DISTRICT.

Sow 40 lbs. to the acre.

TIMOTHY GRASS (*Phleum pratense*).

If sown alone, 30 lbs. to the acre.

WALLABY GRASS (*Danthonia Semi-annularis*).

A valuable permanent native grass. Sow 15 to 20 lbs. to the acre.

WAIPU BROWNTOP (*Agrostis tenuis vulgaris*).

Recommended for Bowling Greens, Golf Putting Greens, and Croquet Lawns.

WOOD MEADOW GRASS (*Poa nemoralis*).

Most useful in the formation of Pastures, Lawns, etc. Does well in shady positions. If sown alone, 30 lbs. to the acre.

YORKSHIRE FOG (*Holcus lanatus*).

If sown alone, 20 lbs. to the acre.

Permanent Pastures

GRASS SEED MIXTURES.

For the laying down of land to Permanent Pastures.

We shall be pleased to send specifications and to quote prices per acre. Clients are requested to furnish full details as to area of land to be laid down, description of same, situation, and as to whether already partially grassed.

Lucerne

HUNTER RIVER.

Genuine broad-leaved, upright, dodder-free Lucerne.

The King of Fodder Plants. Excellent for Cattle, Horses, Sheep, etc. Should be grown by every farmer. Triple Machine Cleaned by Up-to-date Machinery.

FODDER CROPS FOR AUSTRALIA.

(By Leslie H. Brunning.)

This book will be found a valuable reference work, as it contains full details of Cultural Information, Utility, etc., of the very best of the Fodder Plants suitable for Australian conditions.

Price, 2/6 per copy. Post Free.

CLOVERS

ALSYKE (*Trifolium hybridum*).

A Perennial variety. It produces enormous crops of good fodder. Sow, if alone, 12 to 14 lbs. to the acre, or 2 lbs. if mixed with other grasses.

BURR CLOVER (*Medicago denticulata*).

Specially suited for growing on dry land or hill-sides. Sow, if alone, 10 to 12 lbs. to the acre.

BERSEEM OR EGYPTIAN CLOVER (*Trifolium Alexandrinum*).

Annual Clover, which does well in poor soil. Sow in Autumn 15 to 20 lbs. broadcast to the acre.

BOKHARA CLOVER (*Melilotus leucantha*).

Also called Sweet Clover. A Perennial which grows well on poor soil. Sow 10 lbs. to the acre.

CLUSTER CLOVER (*Trifolium Glomeratum*).

This Annual Clover spreads rapidly, and yields an abundance of good pasture. Mixed with other Grasses, sow 2 to 4 lbs. to the acre.

COW GRASS OR PERENNIAL RED CLOVER (*Trifolium pratense perenne*).

Yields an immense crop, which is highly nutritious. 15 lbs. required to sow an acre by itself, or 3 to 5 lbs. if mixed with other grasses.

GIANT COW GRASS CLOVER (Extra Prime).

Vigorous grower, and is splendid for milk production. If alone, sow 15 lbs. to the acre; if mixed with other grasses, sow 3 to 5 lbs. to the acre.

ITALIAN SCARLET CLOVER (*Trifolium incarnatum*).

An Annual Clover, excellent for an early crop. 12 to 15 lbs. required to sow an acre, or 4 lbs. if mixed with other grasses.

KING ISLAND MELILOT (*Melilotus Indica*).

A valuable Clover for pasturing. Suitable for poor quality land and sandy wastes, near the sea shore. 15 lbs. seed required to sow an acre.

RED OR BROAD CLOVER (*Trifolium pratense*).

Yields an immense crop. 20 lbs. required to sow an acre, or 4 lbs. if mixed with other grasses.

LOTUS MAJOR (The Greater Birdsfoot Trefoil).

A deep-rooting Perennial Clover, producing an enormous amount of fodder. Can be grown with equal success on the richest or poorest soils. Sow 15 lbs. alone, or 3 to 4 lbs. when sown with other grasses.

STRAWBERRY CLOVER (Clean Shelled Seed).

A very valuable variety for damp lands. Sow 2 to 3 lbs. to the acre.

SUCKLING CLOVER (*Trifolium minus*).

Annual Clover. Does well in sandy soils. Mixed with other grasses, sow 2 to 3 lbs. per acre.

TREFOIL OR HOP CLOVER (*Medicago lupulina*).

Hardy Clover for sheep pasture, suitable for cold districts. Sow with other grasses, 2 to 3 lbs. per acre.

SUBTERRANEAN CLOVER (*Trifolium Subterraneum*).

A valuable fodder plant; thrives in any soil. Highly esteemed by pastoralists. If sown alone, 5 to 7 lbs. to the acre, or 2 lbs. if mixed with other grasses.

WHITE DUTCH CLOVER (*Trifolium Repens*).

Valuable in pastures, either for dairying or fattening, and will thrive in comparatively poor land. Sow 12 to 14 lbs. to the acre by itself, or 2 lbs. if mixed with other grasses.

Forage Crops

WHEN ENQUIRING FOR SAMPLES AND PRICES,
KINDLY STATE APPROXIMATE QUANTITIES
REQUIRED.

Rape

DWARF ESSEX (The Great Feed for Sheep).

True Broad-leaved Dwarf Essex.

Sow in Autumn or Spring, from 4 to 6 lbs. to the acre.

WHITE MUSTARD.

Sow with Rape as a preventative of bloat and scouring. $\frac{1}{2}$ to $\frac{3}{4}$ lb. per acre is ample.

Sorghums and Millets

FOR GREEN FODDER PURPOSES.

SORGHUMS.

SUDAN GRASS.

Great drought-resisting Summer fodder, adaptable to all climates, and will grow on any soil. Sow 6 to 8 lbs. in drills, 15 to 20 lbs. broadcast to the acre.

SORGHUM SACCHARATUM.

A very nutritious Summer Fodder Plant, excellent for cows. Sow 14 lbs. broadcast, or 7 lbs. in drills to the acre.

AMBER SUGAR CANE (Var. Sorghum).

Gives an enormous amount of fodder. Sow 8 to 10 lbs. in drills, 15 lbs. broadcast to the acre.

BROOM CORN.

Largely grown as fodder for feeding stock. Sow 8 to 10 lbs. in drills, 15 lbs. broadcast to the acre.

IMPHEE, OR PLANTER'S FRIEND

One of the most popular of the Sorghum family. Sow 8 to 10 lbs. in drills, 15 lbs. broadcast to the acre.

JOHNSON GRASS, OR EVERGREEN MILLET

A Perennial variety of Sorghum which has now come largely into use. Sow 8 to 10 lbs. in drills, 12 lbs. broadcast to the acre.

JAPANESE MILLET.

Very productive well known variety, rapid grower. Sow 8 to 10 lbs. in drills, 15 lbs. broadcast to the acre.

SEED MAIZE.

We carry stocks of all the leading varieties of Maize, and shall be pleased to quote for quantities on application.

Seed Grain

It must be distinctly understood that all Seed Grain is sold for NETT PROMPT CASH ONLY. Exchange must be added to Cheques.

RYE (60 lbs. Bushel); CAPE BARLEY (50 lbs. Bushel); MAIZE (56 lbs. Bushel); WHEAT (60 lbs. Bushel); OATS, ALGERIAN, STOUT, WHITE (40 lbs. Bushel).

SAMPLES AND PRICES OF AGRICULTURAL SEEDS POST FREE.

Field Root Crops

SWEDES.

(Sow October to January, 2 to 3 lbs. per acre.)

CHAMPION PURPLE TOP, ELEPHANT PURPLE TOP, SKIRVING'S PURPLE TOP, DEFIANCE PURPLE TOP.

MANGELS.

(Sow September to December, 4 lbs. per acre.)

MAMMOTH LONG RED, CHAMPION YELLOW GLOBE.

GIANT HALF SUGAR MANGELS.

(Sow September to December, 8 lbs. per acre.)

WHITE TOP, ROSE TOP.

FIELD TURNIPS.

(Sow October to December, 2 to 3 lbs. per acre.)

PURPLE TOP YELLOW ABERDEEN, WHITE GLOBE, PURPLE TOP MAMMOTH.

FIELD CARROTS.

(Sow September to February, 4 lbs. per acre.)

YELLOW BELGIAN, WHITE BELGIAN, SINCLAIR'S CHAMPION.

SUGAR BEET.

(Sow September to November, 8 lbs. per acre.)

VILMORIN'S IMPROVED.

GIANT SILVER BEET.

"A Wonderful Fodder Crop."

(Sow September to November, 4 to 6 lbs. per acre.)

Four Purpose Crops

For Green Manuring, Winter Feed, Cleaning the Land, etc. The following mixtures are made up by ourselves, and are mixed in proportion to meet the different requirements:—

No. 1.

$\frac{1}{2}$ bus. Ryecorn
 $\frac{1}{2}$ bus. Dun Peas
 $\frac{1}{2}$ lbs. Golden Tares
 $\frac{1}{2}$ bus. Algerian Oats

No. 2.

$\frac{1}{2}$ bus. Ryecorn
 $\frac{1}{2}$ bus. Dun Peas
 $\frac{1}{2}$ bus. Cape Barley
 $\frac{1}{2}$ bus. Algerian Oats
 $\frac{1}{2}$ lbs. Golden Tares

Prices on Application. Special Quotations given for large areas.

Various Agricultural Seeds

NOTE.—Nothing less than Half-Bushels will be charged at the Bushel rate. When writing for Samples and Prices, please state approximate quantity required.

BUCKWHEAT (Japanese)—Sow 1 bushel to the acre.
FIELD CABBAGE (Giant Drumhead)—A late variety, growing to an immense size; very solid. Largely cultivated.

CABBAGE OR KALE (Thousand-headed)—Invaluable as a fodder for sheep. Sow 2 to 3 lbs. to the acre.

CHOU MOELLIER—A valuable fodder plant. Sow 2 lbs. to the acre in drills.

COW PEAS—A valuable fodder plant, sheep being very fond of them when in flower. Sow 1 to $1\frac{1}{2}$ bushels to the acre.

CATTLE PUMPKIN—Plant three or four seeds in a patch, 12 ft. apart each way. Sow 2 lbs. to the acre.

CROWN, KING OF THE MAMMOTH, IRONBARK, HEMP—Sow 60 lbs. to the acre broadcast.

LINSEED OR FLAX (56 lbs. to the bushel)—Sow early in the Spring or Autumn at the rate of $1\frac{1}{2}$ bushels to the acre.

FIELD PEAS, DUN, GREY, or PARTRIDGE—Sow broadcast at the rate of 2 to 3 bushels to the acre (60 lbs. to the bushel).

SUNFLOWER—Extensively grown for poultry feeding. Sow 8 to 10 lbs. to the acre.

SOY BEAN—Sow in the Spring, planting about 30 lbs. to 60 lbs. per acre.

TARES OR VETCHES (60 lbs. to the bushel)—Excellent for green feed. Sow in the Autumn, 2 bushels to the acre.

TICK OR HORSE BEANS (60 lbs. to the Bushel)—Sow 2 bushels to the acre.

Tobacco Seed

An ounce of Tobacco Seed contains between 300,000 and 400,000 seeds. Quite 70 per cent. of these are infertile, consequently an ounce of seed will provide sufficient plants for from 4 to 6 acres of heavy tobacco and 2 to 4 acres of Cigar tobacco, the latter being closer in the field to obtain better texture. Space will not permit dealing with the cultivation or harvesting of tobacco, and growers are recommended to write to the Dept. of Agriculture for their 94 page illustrated *Bulletin, No. 53*, which deals thoroughly with all phases of tobacco growing, harvesting and curing. **Price 3d. per Copy.**

We can supply the following varieties of Tobacco Seed:—

CONQUEROR, HICKORY PRYOR, YELLOW PRYOR, DUNGWAN WARNE, GOLD LEAF, WHITE STEM ORONOCO, SPOTTED GUM, KENTUCKY YELLOW. 6d. Packet. For larger quantities, price on application.

Kikuyu Grass

KIKUYU GRASS is indigenous to British East Africa, in which country authorities describe its value as a veritable "mortgage lifter." Kikuyu is not selective in its choice of soils. It stands frost satisfactorily and is an excellent drought-resister. It is highly recommended for sandy and all light soils.

25/- per bag. A bag makes approximately 750 to 1000 sets.

CAHOON HAND SEED SOWER.

The Best, Simplest and Easiest Running Hand Seed Sower on the market. Sows evenly and uniformly any desired quantity at the rate of from 4 to 6 acres per hour. Easily and quickly adjusted. Can be used for broadcasting fine and large seeds, including Kentucky Blue Grass, Ryegrass, Cocksfoot, Lucerne, Clovers, Millets, Sudan Grass, Oats, Barley, Wheat, Ryecorn, etc. Weight when empty, only $5\frac{1}{2}$ lbs.

Price: 32/6 each, plus tax (Freight & Packing Extra).

Cahoon Hand Seed Sower.

Anything not listed in this Catalogue will gladly be procured to facilitate the convenience of our clients. Our aim is "Service and Satisfaction."

BONE MEAL—3d. lb.; 1 cwt., 25/-.
SUPERPHOSPHATE OF LIME—9/- cwt.
SUPER AND BONE—12/6 cwt.
MARKET GARDEN FERTILISER—5 lbs., 1/-; 14 lbs., 2/3; 28 lbs., 4/6; 56 lbs., 7/-; 1 cwt., 12/6.

FLORAPHOS

THE WONDERFUL GARDEN MANURE.
CONCENTRATED—SOLUBLE—ODOURLESS.

This fertiliser has proved itself, and is used by all Leading Gardeners and Nurserymen. Floraphos fed fortnightly will work wonders in the garden. For Vegetables, Flowers and Lawns it stands alone.

This wonderful concentrated garden fertiliser is all pure plant food, and no surplus waste material. It is derived from nitrogen in the air by a modern electrical synthetic process, and combined with soluble phosphates, providing the highest analysis of all Fertilisers.

DIRECTIONS FOR USE.

A dessertspoonful dissolved in a 2-gallon can of water makes rich liquid manure, odourless and without trouble to prepare. Water this freely, during growth. At this strength it will not injure even delicate plants or leaves.

Dry, sprinkle it on beds at any time—a dessertspoonful (half-ounce) to each square yard, and water into the soil.

Trial Packets, 4d. each (Postage 4d. Extra); 2 lb. Cartons, 1/9; 7 lb. Bags, 5/3; 14 lbs. or over at 8d. per lb.

POULTRY AND BIRD SUNDRIES

DO YOU REQUIRE A GARDENER?

We consider our "Gardener Supply Service" as very important, as a garden reflects more or less the qualifications of the person in charge. So one of the principals of our establishment pays special attention to this matter and to the best of his ability acquaints himself as to the merits and respectability of a gardener before recommending him. Clients, therefore, requiring permanent gardeners or casuals will please get in touch with us, when we will be pleased to give them the benefit of our experience and knowledge in making a selection. We make NO CHARGE for so doing, this being part of "OUR SERVICE."
